

BACKYARD WILDLIFE WATCHER

Wildlife Watchers need:

- a pencil
- this sheet with the chart below

1. Find a spot and a comfortable seat outside your home. Write down five signs of life you see – animals, plants, animals tracks, nests – anything that shows the life in your backyard! *One example has been done for you.* Use the back of this sheet if you need more space!
 2. Answer the questions on the bottom of the page from your observations.
-

Backyard Wildlife Observations

What I Saw

Description

Cardinal

red bird, about 9 inches tall

-
1. Which plants or animals did you see?
 2. What in your yard (or environment) helps them survive?
 3. List 3 things you could do to help your backyard naturally support plant and animal life.
